

SECTOR BUNDLE

mediasolam Education

AI for universities, research centers and teaching.

Research document corpora, digitization and transcription of historical collections, and automatic transcription of lectures and seminars. The full academic workflow with AI.

Why this bundle?

- › Queryable corpus of all research documentation with semantic search.
- › Digitization and HTR transcription of historical collections and manuscripts.
- › Automatic transcription of lectures, seminars and conferences with multilingual subtitles.
- › Guaranteed accessibility — automatic subtitles for students with specific needs.

How they work together

Contemporary research (VerbaDoc) and historical heritage (Scriptorium) stay interconnected, and teaching activity becomes queryable and accessible material (Annalogica).

1. VerbaDoc Pro indexes theses, papers, research reports and academic documentation.
2. Scriptorium IA transcribes historical collections from the university archive — from incunabula to 20th-century administrative documentation.
3. Annalogica generates multilingual subtitles and summaries of all recorded teaching sessions.

Apps included

Each app solves one piece of the problem. Together they cover the full cycle.

VerbaDoc Pro CORE APP RESEARCH CORPUS

verbadocpro.eu

Institutional document corpus queryable in natural language. Theses, papers, reports and academic documentation indexed with AI.

Scriptorium IA HISTORICAL COLLECTIONS

HTR transcription of university historical collections: manuscripts, incunabula, old administrative documentation. Era-specific trained models.

Annalogica LECTURES & SEMINARS

Multilingual automatic transcription and subtitling of lectures, seminars and conferences. Guaranteed accessibility and a queryable teaching archive.

How to buy the bundle

Single app

License just one of the apps in the bundle. Ideal for validation before scaling.

RECOMMENDED

Complete bundle

All the apps with preconfigured integration and unified support. Best value for money.

Custom configuration

You pick the apps you need and we add specific integrations for your organization.
