

SECTOR BUNDLE

mediasolam Legal

Intelligent document management for law firms, notaries and consultancies.

Legal case indexing, natural language legal search, client meeting transcription and automated dossier preparation.

Why this bundle?

- › Semantic indexing of cases, case law and contractual documentation.
- › Natural language search with full traceability to source.
- › Automatic transcription of meetings, hearings and depositions with speaker identification.
- › GDPR compliance and European hosting — guaranteed professional secrecy.

How they work together

The firm accesses its entire document base as if dialoguing with a lawyer who has read every case file, and meetings are automatically turned into indexed documentation.

1. VerbaDoc Pro indexes case files, contracts, deeds and case law for instant querying.
2. Ask in natural language and get the answer with the exact reference to the source document.
3. Annalogica transcribes client meetings and depositions — structured legal minutes in minutes.

Apps included

Each app solves one piece of the problem. Together they cover the full cycle.

VerbaDoc Pro **CORE APP** LEGAL DOCUMENT BASE

verbadocpro.eu

Legal document orchestration: case files, contracts, deeds, case law. Natural language queries with full traceability to source.

Annalogica MEETING TRANSCRIPTION

Transcription of client meetings, court hearings and depositions. Speaker identification and structured minutes ready to be incorporated into the case file.

How to buy the bundle

Single app

License just one of the apps in the bundle. Ideal for validation before scaling.

RECOMMENDED

Complete bundle

All the apps with preconfigured integration and unified support. Best value for money.

Custom configuration

You pick the apps you need and we add specific integrations for your organization.
