SECTOR BUNDLE

mediasolam Health

Intelligent document suite for hospitals, clinics and healthcare centers.

Automated clinical reports, medical transcription of consultations and clinical image management. GDPR-compliant and hosted 100% in Europe.

Why this bundle?

- Automated clinical reports from the patient's medical history.
- Transcription of consultations and clinical sessions with speaker identification.
- GDPR compliance and data hosting on European infrastructure.
- Integration with EHR systems and hospital document management.

How they work together

The VerbaDoc clinical report incorporates Annalogica's transcription and references images indexed by AnnaPhoto — all from a single interface.

1. VerbaDoc Pro Salud processes the patient's clinical documentation and generates structured reports.
2. Annalogica transcribes consultations, clinical sessions and committees with speaker identification.
3. AnnaPhoto manages the clinical image archive (dermatology, radiology, pathology) with visual search.

Apps included

Each app solves one piece of the problem. Together they cover the full cycle.

VerbaDoc Pro Salud

CORE APP · CLINICAL REPORTS

Specialized VerbaDoc Pro for healthcare: automated clinical reports, hospital document management, healthcare GDPR compliance.

Annalogica

MEDICAL TRANSCRIPTION

Multilingual automatic transcription of consultations, clinical sessions and committees. Speaker identification and AI summaries.

AnnaPhoto

CLINICAL IMAGING

Clinical image archive with visual search, annotations and temporal comparison across studies of the same patient.

How to buy the bundle

Single app

License just one of the apps in the bundle. Ideal for validation before scaling.

RECOMMENDED

Complete bundle

All the apps with preconfigured integration and unified support. Best value for money.

Custom configuration

You pick the apps you need and we add specific integrations for your organization.
